

Exhibition Trailer Hire - Box and Flatbeds

Box Trailers

Often during shows and events our clients require secure storage space for merchandising, leaflets, containers and many other items. To solve this issue we can supply a box trailer to sit behind your stand or in some cases just to transport goods to site.

Ambition will deliver and set up the trailer on site. So all you have to do is turn up and concentrate on your products, your customers and your show.

In addition to our extensive event management services we have the facility to store, maintain, manage and operate client assets such as show display materials, products, branding, literature and exhibition show trailers.

Our private warehouse in Suffolk is safe, dry and insulated so assets are well protected from the elements regardless of how long they stay in store.

Flatbed Trailers

We also have flatbed trailers that are used to transport products and display items to and from shows. These units have ramps and sides so are very versatile to different types of load.

We supply a range of services and products to enhance our client's show stands, contact us for more details and to discuss your requirements and bookings.
